

CAMBRIDGE MUSEUM OF TECHNOLOGY

The Old Pumping Station, Cheddars Lane, Cambridge, CB5 8LD

Charitable Incorporated Organisation Number 1156685

Environmental Sustainability Policy

1. Policy Statement

Cambridge Museum of Technology recognises the need for responsible energy and waste management and is committed to improving energy efficiency and protecting the environment. We will endeavour to minimise the impact our operations have on the environment whilst carrying out our mission to be a working museum which demonstrates historic technologies.

2. Objectives

- To fully comply with the law and regulations and to take a proactive approach to future legal requirements or obligations.
- To reduce the emissions of green house gases and conserve natural resources.
- To educate and train all volunteers in environmental issues and in good working practices in order to create an energy efficient, and environmentally aware working culture.
- To conserve natural resources wherever possible.
- To promote sustainable purchasing, waste minimisation and the recycling and re-use of materials
- To reduce landfill and promote the recycling ethos.

3. Implementation of the Policy

We will develop practices and initiatives across the following broad themes:

- Conservation of energy, fuel and natural resources
- Develop and adopt sustainable purchasing practices
- Promote recycling and waste minimisation
- Build sustainability into our programmes
- Build sustainability into the management of our collections
- Raise the awareness of sustainability issues amongst our volunteers and visitors and promote sustainable working practices
- Engage with external contacts to increase our knowledge and share our experiences of sustainability within our sector
